Martínez presents a radical Latina perspective on race, liberation and identity. She describes the provocative ideas and new movements created by the rapidly expanding US Latina/o community as it confronts intensified exploitation and racism.

Named the 2009 AAUP Best of the Best - Outstanding Book Distinction The history of Mexican Americans spans more than five centuries and varies from region to region across the United States. Yet most of our history books devote at most a chapter to Chicano history, with even less attention to the story of Chicanas. 500 Years of Chicana Women's History offers a powerful antidote to this omission with a vivid, pictorial account of struggle and survival, resilience and achievement, discrimination and identity. The bilingual text, along with hundreds of photos and other images, ranges from female-centered stories of pre-Columbian Mexico to profiles of contemporary social justice activists, labor leaders, youth organizers, artists, and environmentalists, among others. With a distinguished, seventeen-member advisory board, the book presents a remarkable combination of scholarship and youthful appeal. In the section on jobs held by Mexicanas under U.S. rule in the 1800s, for example, readers learn about flamboyant Doña Tules, who owned a popular gambling saloon in Santa Fe, and Eulalia Arrilla de Pérez, a respected curandera (healer) in the San Diego area. Also covered are the "repatriation" campaigns of the Midwest during the Depression that deported both adults and children, 75 percent of whom were U.S.-born and knew nothing of Mexico. Other stories include those of the garment, laundry, and cannery worker strikes, told from the perspective of Chicanas on the ground. From the women who fought and died in the Mexican Revolution to those marching with their young children today for immigrant rights, every story draws

inspiration. Like the editor's previous book, *500 Years of Chicano History* (still in print after 30 years), this thoroughly enriching view of Chicana women's history promises to become a classic.

Mexicana and Chicana authors from the late 1970s to the turn of the century helped overturn the patriarchal literary culture and mores of their time. This landmark volume acquaints readers with the provocative, at times defiant, yet subtle discourses of this important generation of writers and explains the influences and historical contexts that shaped their work. Until now, little criticism has been published about these important works. Addressing this oversight, *Teaching Late-Twentieth-Century Mexicana and Chicana Writers* starts with essays on Mexicana and Chicana authors. It then features essays on specific teaching strategies suitable for literature surveys and courses in cultural studies, Latino studies, interdisciplinary and comparative studies, humanities, and general education that aim to explore the intersectionalities represented in these works. Experienced teachers offer guidance on using these works to introduce students to border studies, transnational studies, sexuality studies, disability studies, contemporary Mexican history and Latino history in the United States, the history of social movements, and concepts of race and gender.

This book documents the experiences of sixty-one women who flourished in the ferment of the civil/ethnic/women's rights movements of the late twentieth century and beyond. While each life

is unique, collectively they demonstrate the benefits gained when a community and a society unleashes and fosters the potential of women who create, organize, and lead. Conversely, an undetermined degree of loss may accrue to societies that suppress or discourage the freedom of women to shape their destinies. When women come together with a collective intention, powerful things happen. Simultaneously, but separately, in 1972-73, at San Diego State University and at Stanford University, and having never met, two of us had the same idea, to propose and design a course about Mexican American women. The idea for this book also has a history. In those days, both of us wanted to contribute to the development of Chicano studies. The Mexican American voice, so much a fabric of U.S. history was missing from the dominant English narrative and the women's presence was nearly absent from Chicano literature and history. Chicanas acted to change these injustices, thereby adding new energy to the Chicano Movement and to other liberation discourse. At that time, as graduate students, we had the opportunity to teach a Chicana women's course. Such a course had never been taught at either university. While women instigated change at different colleges, in those years Chicanas/Latinas appeared to be anonymous. And although Anglo women around the country had already started addressing women's needs, they did not include the new diverse student population that was entering the universities. the woman where she has most noticeably served. Chapters One and Two begin with *Mujeres Presentes*, that is, the women who have passed away but whose presence lives on as their actions continue to affect the lives of others. Chapters Eleven and Twelve highlight educators whose work builds on that of earlier mentors and their actions. The chapters between include: Three and Four, "Early Activists;" Five and Six, "Chicanas in the Arts: " Seven and Eight, "Chicanas in Education;" Nine and Ten,

"Chicanas in Public Office." Each chapter includes a brief introduction, but the women's narratives are the core of the book; their stories easily stand on their own. This collection may be considered a starting point and by no means represents the entire Chicana/Latina community in San Diego. As it turned out there were many more women than the sixty-one women presented here. The hope is that others may read the book and decide to author a future edition. All women ought to be honored for their efforts and receive the recognition they deserve.

"Black, Brown, Yellow, and Left is unique. No other work deals in such detail with the complex relationships between racial nationalism and the radical left during the 1960's. A powerful and resonant achievement. Highly recommended!"—Howard Winant, author of *The World is a Ghetto: Race and Democracy Since World War II* "Laura Pulido has written an invaluable study of the development of the multiracial Third World Left in southern California. She engages black, brown, and yellow radical activisms together, demonstrating how each vision differed but contributed to a movement that was ultimately more than the sum of its parts. Pulido's powerful excavation of the Third World Left's historical past provides reasons to hope for a more just, antiracist left future."—Lisa Lowe, author of *Immigrant Acts: On Asian American Cultural Politics*
