Mike Mullin (author) - Wikipedia

Mike Mullins first job was scraping the gum off the undersides of desks at his high school. From there, things went steadily downhill. He almost got fired by the owner of a bookstore due to his poor taste in earrings. He worked at a place that showed slides of poopy diapers during lunch (it did cut down on the cafeteria budget).

Mike Mullin (Author of Ashfall) - Goodreads

Ashfall is Mike Mullin's relentless debut novel and the first in a trilogy that fans of dystopian literature will love. Mullin's view of our post-apocalyptic world is grim, much more than in books like Life As We Knew It, The Forest of Hands and Teeth, and Pretties. This is more comparable to The Road (not that I'd know, eek) or The Walking Dead.

Mike Mullin's Ashfall is way too real for comfort: you'll live the panic and despair and know that all of this could really happen. It will be a long time before you get the taste of volcanic ash out of your mouth. This isn't fantasy, this is real.* Michael Grant, New York Times bestselling author of Gone, Lies, Hunger, and Plague.

Ashfall Book Review and Ratings by Kids - Mike Mullin

First, yes, there will be a fourth full-length ASHFALL book. So it will no longer be a trilogy. Or a three-and-a-half-ology. Now I think it will be a tetra-logy? Or a four-and-a-half-ology? Anyway, the series order will be: ASHFALL, (DARLA'S STORY is a novelette that can be read before or after ASHFALL), ASHEN WINTER, SUNRISE, and ASHFALL #4.

ASHFALL #4 - mikemullinauthor

It's been over six months since the eruption of the Yellowstone supervolcano. Alex and Darla have been staying with Alex's relatives, trying to cope with the new reality of the primitive world so vividly portrayed in Ashfall, the first book in this trilogy. It's also been six months of waiting for Alex's parents to return from Iowa.

After the eruption of the Yellowstone supervolcano destroys his city and its surroundings, fifteen-year-old Alex must journey from Cedar Falls, Iowa, to Illinois to find his parents and sister, trying to survive in a transformed landscape and a new society in which all the old rules of living have vanished

Many visitors to Yellowstone National Park don't realize that the boiling hot springs and spraying geysers are caused by an underlying supervolcano, so large that the caldera can only be seen by plane or satellite. And by some scientific measurements, it could be overdue for an eruption. For Alex, being left alone for the weekend means having the freedom to play computer games and hang out with his friends without hassle from his mother. Then the Yellowstone supervolcano erupts, plunging his hometown into a nightmare of darkness, ash, and violence. Alex begins a harrowing trek to search for his family and finds help in Darla, a travel partner he meets along the way. Together they must find the strength and skills to survive and outlast an epic disaster.

More than six months after the eruption of the Yellowstone supervolcano, Alex and Darla retrace their steps to Iowa hoping to find Alex's parents and bring them to the tenuous safety of Illinois, but the journey is ever more perilous as the remaining communities fight to the death for food and power.

Under the bubbling hot springs and geysers of Yellowstone National Park is a supervolcano. Most people don't know it's there. The caldera is so large that it can only be seen from a plane or satellite. It just could be overdue for an eruption, which would change the landscape and climate of our planet. For Alex, being left alone for the weekend means having the freedom to play computer games and hang out with his friends without hassle from his mother. Then the Yellowstone supervolcano erupts, plunging his hometown into a nightmare of darkness, ash, and violence. Alex begins a harrowing trek to search for his family and finds help in Darla, a travel partner he meets along the way. Together they must find the strength and skills to survive and outlast an epic disaster.

The Yellowstone supervolcano nearly wiped out the human race. Now, almost a year after the eruption, the survivors seem determined to finish the job. Communities wage war on each other, gangs of cannibals roam the countryside, and what little government survived the eruption has collapsed completely. The ham radio has gone silent. Sickness, cold, and starvation are the survivors' constant companions. When it becomes apparent that their home is no longer safe and adults are not facing the stark realities, Alex and Darla must create a community that can survive the ongoing disaster, an almost impossible task requiring even more guts and more smarts than ever—and unthinkable sacrifice. If they fail . . . they, their loved ones, and the few remaining survivors will perish. This epic finale has the heart of Ashfall, the action of Ashen Winter, and a depth all its own, examining questions of responsibility and bravery, civilization and society, illuminated by the story of an unshakable love that transcends a post-apocalyptic world and even life itself.

After witnessing an act of domestic terrorism while training on his bike, Jake is found near death, with a serious head injury and unable to remember the plane crash or the aftermath that landed him in the hospital. A terrorist leader's teenage daughter, Betsy, is sent to kill Jake and eliminate him as a possible witness. When Jake's mother blames his head injury for his tales of attempted murder, he has to rely on his girlfriend, Laurissa, to help him escape the killers and the law enforcement agents convinced that Jake himself had a role in the crash. Mike Mullin, author of the Ashfall series, delivers a gripping story with memorable characters and all-too-real scenarios.

Through journal entries, sixteen-year-old Miranda describes her family's struggle to survive after a meteor hits the moon, causing worldwide tsunamis, earthquakes, and volcanic eruptions.

Four teens struggle to survive in an apocalyptic world gone mad in this "brilliant novel that is a fascinating blend between I Am Legend and The Hunger Games" (VOYA). Since the beginning of mankind, civilizations have fallen: the Romans, the Greeks, the Aztecs...and now us. Huge earthquakes rock the world. Cities are destroyed. But something even more awful is happening: An ancient evil has been unleashed, and it's turning everyday people into hunters, killers, and crazies. This is the world Aries, Clementine, Michael, and Mason are living in—or rather, trying to survive. Each is fleeing unspeakable horror, from murderous chaos to brutal natural disasters, and each is traveling the same road in a world gone mad. Amid the throes of the apocalypse and clinging to love and meaning wherever it can be found, these four teens are on a journey into the heart of darkness—and to find each other and a place of safety.

Argyle Fox, with his signature style, wants to play outside on a springtime day, but the wind is wreaking havoc with his fun and games. As soon as he builds a card tower, climbs into a giant spider web, or takes up his pirate sword, here comes the wind. Woosh! Mama Fox tells grumpy Argyle that if he thinks long enough, he will come up with something to do. Following his mother's suggestion and inspired by her knitting, he works all the pieces of his day together and creates the perfect solution. The story of Argyle teaches that failure is often a path to success and celebrates perseverance, creative thinking, and an old-fashioned springtime activity.

The eagerly awaited addition to the series begun with the New York Times best-seller Life As We Knew It, in which a meteor knocks the moon off its orbit and the world changes forever. It's been more than two years since Jon Evans and his family left Pennsylvania, hoping to find a safe place to live, yet Jon remains haunted by the deaths of those he loved. His prowess on a soccer field has guaranteed him a home in a well-protected enclave. But Jon is painfully aware that a missed goal, a careless word, even falling in love, can put his life and the lives of his mother, his sister Miranda, and her husband, Alex, in jeopardy. Can Jon risk doing what is right in a world gone so terribly wrong?

It's been a year since a meteor collided with the moon, catastrophically altering the earth's climate. For Miranda Evans, life as she knew it no longer exists. Her friends and neighbors are dead, the landscape is frozen, and food is increasingly scarce. The struggle to survive intensifies when Miranda's father and stepmother arrive with a baby and three strangers in tow. One of the newcomers is Alex Morales, and as Miranda's complicated feelings for him turn to love, his plans for his future thwart their relationship. Then a devastating tornado hits the town of Howell, and Miranda makes a decision that will change their lives forever.
