The Essential Lingo Dictionary is a warts-and-all look at the notoriously hilarious (and occasionally a little bit naughty) canon of Australian slang words and phrases, casting light on the quirky, intriguing and often bizarre Australian Aussie language. A must-have for every bookshelf! If you have wondered why his girlfriend is a "Sheila" even though her name is Sophia, or why your colleagues in Melbourne's suburbs are said to live "beyond the black stump", then this book is for you. The author, John Miller, has been a journalist for over thirty-five years and is passionate about Australia's history and heritage. As well as making extensive use of written references to compile this book, John interviewed Australians from all walks of life - from outback characters to school kids - to ensure he captured every nuance of Australia's unique language as it is spoken today.

The ever popular and thoroughly entertaining Aussie Slang Dictionary is back to help you decipher and speak the true local language. Full of dazzling definitions from true-blue Aussies, you'll never be lost for words with this collection of colourful sayings. From 'aerial ping-pong' (AFL) to 'on the wrong tram' (to be following the wrong train of thought) and finishing up with some 'verbal diarrhoea' (never-ending blather), your mind will be brimming with useful (and not so useful!) sayings for your next run-in with a true Aussie character.

This dictionary brings together a colourful collection of colloquialisms from Down Under, including humorous rhyming slang, inventive insults and comical curses. Celebrating a distinctive and often irreverent language, Australian Slang is a ripper of a read that will delight visitors from OS, as well as true-blue Aussie blokes and sheilas. Read this book to discover the meaning behind perplexing Australian discourses such as this one- G'day mate! How've ya been, you old bastard? Take a butchers at that galah playing aerial ping-pong on the telly. He's about as useful as a one-legged man in an arse-kicking competition. The drongo'll get the spear if he doesn't pull his socks up.

Hello or G'day English to Australian Slang Dictionary Enjoy over 1001 + Aussie slang words A to Z Easy to find words and phrase's to impress your friends in Australia and Overseas. After studying this dictionary and working on a couple other things. Maybe you can pass as an Aussie in the Big Smoke. Enjoy Hooroo Mr Bennett Books

The Penguin Book of Australian Slang scales the heights - and plumbs the depths - of the Australian language. For twenty years Lenie Johansen has been tuning in to and recording what Australians really say on the streets, in the pubs and to their family and mates. In this remarkable collection of classic and current colloquialisms she displays for readers all the inventiveness with words and the love of colourful expressions that have made Oz English unique.

Aussie Slang is a richly-textured, often ribald world of understatement and laconic humour. This guide aims to do three things; (a) to help the traveller decipher what they hear around them in everyday Australian life, (b) give the casual reader some insight into informal Australian culture, and (c) make a record of some old Australian expressions that are slipping into disuse now that English has become a global language. Readers will recognize both British and American terms in this list. Australian English has absorbed much from these two great languages. For depth of knowledge of their own language, no-body beats the British. It's their language after all. A thousand years in the making, the English language is embedded deep in the DNA of the British. No-one uses their language more skilfully than they do. On the other hand, American English has a creative power that recognizes no boundaries. Americans have taken a very good all-purpose language and extended it in all kinds of directions with new words describing the world as it is today. They do not generally cling to old forms out of respect for tradition. As Winston Churchill observed, Britain and America - two great nations divided by the same language. Australian English sits comfortably in the space between the two. Australian English began in the early days of settlement as English with a healthy dash of Celtic influence from the many Scots, Irish and Welsh settlers who came to Australia. Large numbers of German settlers also came in the 1800's, and their influence on the language is also clearly evident. For over a hundred years, Australia developed in splendid isolation its unique blend of English, tempered by the hardships of heat and cold, deluge and drought, bushfires and cyclones. The harsh environment united people in a common struggle to survive. People helped each other. Strong communitarian loyalties were engendered. It is from this that the egalitarian character of Australia evolved. There is a strong emphasis on building a feeling of solidarity with others. Strangers will call each other "mate" or "luv" in a tone of voice ordinarily reserved for close friends and family in other parts of the world. Everyone was from somewhere else, and no-one was better than anyone else. A strong anti-authoritarian attitude became deeply embedded in Australian English. This was mainly directed towards their British overlords who still ran the country as a profitable colony. The Australian sense of humour is generally understated, delivered with a straight-face, and is often self-deprecating in nature. No-one wants to appear to be "up themselves". Harsh or otherwise adverse conditions had to be met without complaint, so when discussing such conditions, it was necessary to do so with laconic, understated humour. Anyone not doing so was deemed a "whinger" (win-ger). Following World War II the American influence came increasingly to influence Australian culture and therefore the language. No-one is better at selling their popular culture to the world than the United States of America. Their pop culture is a beguiling instrument of foreign policy, so pervasive and persuasive it is. Young Australians enthusiastically embraced American culture, and since the 1940's the old established British language and customs have become blended with the American. If Australian English has a remarkable quality, it is the absence of regional dialects. It is spoken with relative uniformity across the entire nation. Brisbane on the East coast is a 4,300 kilometre (2,700 mile) drive from Perth on the West coast, yet there is little discernible linguistic difference between the two places compared with the difference, for example between Boston and San Francisco in the US. Nowhere else in the world do we see such linguistic uniformity across large distances.

When you learn English you're taught how to speak and write "proper" English. Then you visit an English-speaking country and start hearing some very strange slang terms. Australian slang is certainly "interesting"! Whether you're dreaming of visiting Australia, have just arrived, or have been on this gigantic island of paradise for a while, there are a few Australian slang words that you should learn to help you get through day-to-day life. In this book, you will discover the interesting slangs that are used by everyday Australians. It is an ideal reference guide for tourists as well as readers who are interested in Australian Slangs. To get started, simply scroll to the top of the page and click the "Buy now with 1-Click" button!

It's been donkey's years, yonks, in fact, since a book as cack-yourself funny as this one has landed. You'll be like a cockie looking down a biscuit tin when you see this little beauty, and best of all, you won't need to part with a grey nurse to own your own little piece of Australiana. Got no idea what we're on about? Then you'd better have a gander. Don't hang five; you'd be a gronk to miss out! The Lingo Dictionary is a warts-and-all look at the notoriously hilarious (and occasionally obscene) Australian slang words and phrases, casting light on the quirky, intriguing and often bizarre Aussie language. A must-have for every bookshelf!
