"Autoportrait" is a physical, psychological, sexual, political, and philosophical triumph. Beyond "sincerity," Lev? works toward an objectivity so radical it could pass for crudeness, triviality, even banality: the author has stripped himself bare. By Jan Steyn. Self-portraiture occupied the French photographer and novelist Edouard Levé throughout his career, but his third novel, Autoportrait, remains his most thorough and sustained attempt in that direction. Levé was the author of only four works of fiction - Oeuvres (2002), Journal (2004), Autoportrait (2005) and Suicide (2008) - each highly experimental, each marked by a ...

Carla Lonzi is the missing voice in Italian art history and art criticism in general. Working in the hyper-masculine world of Italian art in the 1960s, many of Lonzi's ideas, about the work of women and the differences between a mainstream and a feminist approach to making work were absorbed into the larger culture; the roots of that thinking are found in 'Self-portrait'. This translation into English is overdue. The work is a forgotten classic of modern art history, feminist studies, and experimental writing. 'Self-portrait' transforms traditional conceptions of linear art historical thinking, reimagines the role of the critic, as well as the role of women in the world of art. 'Self-portrait' was Lonzi's last book to focus on artists before she dedicated herself to political feminism. Art remained an important part of Lonzi's approach to feminist activism, she saw "creativity as a mode of self-emancipation" and this book enables readers to observe that process at work through the detailed and profound discussions that come out through Lonzi's commitment. An insider's view into the early careers of many prominent Italian artists: Accardi, Alviani, Castellani, Consagra, Fabro, Fontana, Kounellis, Nigro, Paolini, Pascali, Rotella, Fontana, Scarpitta, Turcato, and Twombly. A polyphonic "love letter" to art and artists, Lonzi assembles a

Edouard Levé delivered the manuscript for his final book, *Suicide*, just a few days before he took his own life. *Suicide* cannot be read as simply another novel—it is, in a sense, the author's own oblique, public suicide note, a unique meditation on this most extreme of refusals. Presenting itself as an investigation into the suicide of a close friend—perhaps real, perhaps fictional—more than twenty years earlier, Levé gives us, little by little, a striking portrait of a man, with all his talents and flaws, who chose to reject his life, and all the people who loved him, in favor of oblivion. Gradually, through Levé's casually obsessive, pointillist, beautiful ruminations, we come to know a stoic, sensible, thoughtful man who bears more than a slight psychological resemblance to Levé himself. But *Suicide* is more than just a compendium of memories of an old friend; it is a near-exhaustive catalog of the ramifications and effects of the act of suicide, and a unique and melancholy farewell to life.

seductive or suicidal, driving the narrator deeper into her obsession, in this unsettling exploration of identity, memory and paranoia. Self Portrait in Green is the multi-prize winning Marie NDiaye's brilliant subversion of the memoir.

"Originally published in French as Oeuvres by P.O.L diteur, Paris, 2002."

The author argues that Indiana's strident visual language emerges from his tendency to recast his life in story and verse, a fact that unlocks complex and secret tissues of figurative meaning within the deceptively simple canvases. By illuminating the enigmas in Indiana's word and image combinations, she helps to explain the longevity of LOVE and its influence on a later generation of artists."--BOOK JACKET.
