John used to cherish their memory. - I've understood the message, about having this watch on my wrist, I mean. I'm to leave this Earth soon, right? She asks looking at JJ straight in his eyes. - Not yet, Mom, not yet. Every human has a finite number of heartbeats. Don't watch the clock; do what it does. Seize the day. - Seize the Day, then she whispers, staring away. - Carpe diem quam minimum credula postero. Seize the Day, put no trust in tomorrow, Mom. Today is the first day of the rest of your life. Time is the only thing that cannot be wasted or lost. I can lose my cell phone, my wallet, a friend, my wife or even my children... but my time? No. My time is always here with me, and I can't lose it. No need to lock it in a safe, no one will ever come to steal it. As if someone would tell me to live! Or that I live off beat! This expression is really stupid... How come have I never thought about it before! The time? It has a wonderful way to show us what really matters. Eager to hear whatever John will say next. - During our time down here, we're like shadows of a toy theater. We're moved around by ropes like puppets. Existentialism is back Carpe diem - 'seize the day' - is one of the oldest pieces of life advice in Western history. But its true spirit has been hijacked by ad men and self-help gurus, reduced to the instant hit of one-click online shopping, or slogans like 'live in the now'. We need to reclaim it to make sense of our complex, confusing times. The last great expression of carpe diem was in the electrifying existential philosophy of the 1940s. Today it's an idea that challenges us to confront our mortality and live with greater passion and intention rather than scroll mindlessly on our phones or allow freedom to become a mere choice between brands. In Carpe Diem Regained, Roman Krznaric reinvents existentialism for our age of information and choice overload. An essential and empowering work of contemporary philosophy, the book unveils the surprising ways of seizing the day that humankind has discovered over the centuries, ones we urgently need to revive. Carpe diem is the existentialism for our times.
