Even as the television industry experiences significant transformation and disruption in the face of streaming and online delivery, the television channel itself persists. If anything, the television channel landscape has become more complex to navigate as viewers can now choose between broadcast, cable, streaming, and premium services across a host of different platforms and devices. From Networks to Netflix provides an authoritative answer to that navigational need, helping students, instructors, and scholars understand these industrial changes through the lens of the channel. Through examination of emerging services like Hulu and Amazon Prime Video, investigation of YouTube channels and cable outlets like Freeform and Comedy Central, and critiques of broadcast giants like ABC and PBS, this book offers a concrete, tangible means of exploring the foundations of a changing industry.

From Ken Burns's documentaries to historical dramas such as Roots, from A&E's Biography series to CNN, television has become the primary source for historical information for tens of millions of Americans today. Why has television become such a respected authority? What falsehoods enter our collective memory as truths? How is one to know what is real and what is imagined -- or ignored -- by producers, directors, or writers? Gary Edgerton and Peter Rollins have collected a group of essays that answer these and many other questions. The contributors examine the full spectrum of historical genres, but also institutions such as the History Channel and production histories of such series as The Jack Benny Show, which ran for fifteen years. The authors explore the tensions between popular history and professional history, and the tendency of some academics to declare the past "off limits" to nonscholars. Several of them point to the tendency for television histories to embed current concerns and priorities within the past, as in such popular shows as Quantum Leap and Dr. Quinn, Medicine Woman. The result is an insightful portrayal of the power television possesses to influence our culture.

Since the early 2000s, Disney Channel has been dominated by original live-action programming popular among tween girls. The shows’ successes rely not only on their popularity among girl audiences, but also on the development of star personae by girl performers, such as Raven-Symoné, Miley Cyrus, and Selena Gomez. In addition, these programs and their performers have spawned lucrative media and merchandising franchises for the Walt Disney Company. This book includes analyses of this Disney Channel programming, as well as Disney corporate reports and executive statements, together with Disney Channel stars’ performances, promotional appearances, media production, philanthropic efforts, and entrepreneurship. Analyzing these texts, performances, activities, and personae, it considers the ways in which they reproduce celebrity, visibility, and feminine performativity as central to successful twenty-first century girlhood.

"As the title implies, the business of television rather than its programming is the focus of this historical dictionary. . . . Slide has produced another hit, another basic source on one of America's basic industries." Wilson Library Bulletin

Written by recognized leaders in the field, MEDIA PROGRAMMING delivers the most accurate coverage of techniques and strategies used in the programming industry today. Reflecting the latest developments from real-world practice, this market-leading text covers all aspects of media programming for broadcast and cable television, radio, and the Internet with clear, current illustrations and examples. It offers in-depth coverage of emerging trends, including multiplatform strategies, cross-media, new media, high definition media, new programming strategies, and wireless and pay-per-view media. This proven text continues to focus on how programs (units of content) are selected (or not selected), arranged, evaluated, and promoted with the need to consider pressures from technology, financing, regulations, policies, and marketing.
