Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The 1-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

"Red November delivers the real life feel and fears of submariners who risked their lives to keep the peace." —Steve Berry, author of The Paris Vendetta W. Craig Reed, a former navy diver and fast-attack submariner, provides a riveting portrayal of the secret underwater struggle between the US and the USSR in Red November. A spellbinding true-life adventure in the bestselling tradition of Blind Man's Bluff, it reveals previously undisclosed details about the most dangerous, daring, and decorated missions of the Cold War, earning raves from New York Times bestselling authors David Morrell, who calls it, "palpably gripping," and James Rollins, who says, "If Tom Clancy had turned The Hunt for Red October into a nonfiction thriller, Red November might be the result."
