Lacan In The German Speaking World - test.enableps.com Although, as Eysers points out, a number of writers including Slavoj Žižek and Adrian Johnson have sought to “materialise” the legacy of German idealism through an attention to the psychoanalytic theory of Jacques Lacan and in particular through his theory of the subject “”, 7 there still seems to be a tendency in Lacanian circles to treat the signifier as some form of transcendental entity. And bearing in mind that the Lacanian subject is, to a large extent, a product of the ...

Lacan ’s concept of the Real – Touching the Real Lacan and Language .Jacques Lacan was a French psychoanalyst who from 1953 until 1980, in addition to his own clinical practice, gave regular seminars in Paris to an audience sometimes amounting to 800, many of whom were distinguished intellectuals in their own right.

Jacques Lacan/Downloads - No Subject - Encyclopedia of ... Lacan uses the Freudian term, Verwerfung, which the "Standard Edition" translates as "repudiation", as a specific defence mechanism different from repression, "Verdrängung", in which "the ego rejects the incompatible idea together with its affect and behaves as if the idea has never occurred to the ego at all."

Foreclosure (psychoanalysis) - Wikipedia This book offers a selection of the best work on Lacan that has been published over the past ten years by RISS, a Swiss journal of Lacanian studies. Though focused on Lacan and Freud, the collection is partly about Germany itself, addressing questions of trauma, historical memory, politics, fascism, and democracy.

Addresses Lacan's reception in Germany, Austria, and Switzerland, offering new perspectives for American readers. Addresses Lacan's reception in Germany, Austria, and Switzerland, offering new perspectives for American readers.

Lang bridges philosophical hermeneutics and psychoanalysis through in-depth expertise in both fields. This book has come to be recognized as the definitive study of Lacan in the German-speaking context.

A major influence on French intellectuals in the twentieth century, Jacques Lacan has been referred to as “the most controversial psychoanalyst since Freud”. Routledge Library Editions: Lacan offers a selection of titles, which examine the influence of Lacan ’s theories in a number of disciplines and includes an annotated bibliography of his works. It brings together as a set, or individual volumes, a series of previously out-of-print titles, originally published between 1983 and 1991.

This bibliography in two volumes, originally published in 1988, lists and describes works by and about Jacques Lacan published in French, English, and seven other languages including Japanese and Russian. It incorporates and corrects where necessary all information from earlier published bibliographies of Lacan ’s work. Also included as background works are books and essays that discuss Lacan in the course of a more general study, as well as all relevant items in various bibliographic sources from many fields.

Examines fundamental concepts of the later Lacan.

This book shows how Benjamin's thoughts regarding the individual's experience of the material world make significant contact with post-Freudian psychoanalytic theory.

A study of Lacan ’s engagement with the Western philosophical traditions of ethical and political thought in his seventh seminar and later work.

What makes it so difficult for Lacanian and American psychoanalysts to understand each other? This question runs through Lacan and the New Wave in American Psychoanalysis, a book that explores the divergent dialogues with Freudian theory that are taking place on both sides of the Atlantic. In a lively exchange, some of the most prominent psychoanalysts in France and America today come together to offer contrasting views on borderline conditions, gender difference, and the role of sexuality and aggression in the development of psychopathology. Comparing Lacan ’s theory of the Subject with recent American views on the psychoanalytic concept of the Self, this book makes Lacan ’s work accessible and clinically relevant to American audiences.

Jacques Lacan's impact upon the theory and practice of psychoanalysis worldwide cannot be underestimated. Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical, social and political contexts. The book argues that Lacan ’s elaboration of psychoanalytic theory is grounded in clinical practice and needs to be defined in relation to the four main traditions: psychiatry, psychology, psychotherapy and spirituality. As such topics of discussion include: the intersection between psychoanalysis and social transformation a new way through deadlocks of current Lacanian debate a new approach to “clinical structures” of neurosis, perversion and psychosis Lacanian Psychoanalysis draws on Lacan's work to shed light on issues relevant to current therapeutic practice and as such it will be of great interest to students, trainees and practitioners of psychoanalysis, psychotherapy, counselling and other domains of personal and social change.
