Introducing FBI profiler Karen Vail, who crosses paths with a Virginia serial killer in the first in the bestselling series. Special Agent Karen Vail "is a knockout, tough and brilliant" (Tess Gerritsen). As lead profiler for the FBI, Vail is spearheading the task force investigation into a serial killer known as "Dead Eyes," who's been terrorizing Fairfax County, Virginia. What separates this psychopath from the others is a peculiar savagery, and an intimate knowledge of the FBI's detailed strategy of pursuit. What separates Vail from her peers is a life that has made her hard and uncompromising. Recently divorced from an abusive husband, and in the throes of an ugly custody battle, she's also helpless against her mother's struggle with Alzheimer's. But little by little, as Vail's personal baggage begins to consume her, the investigation threatens to derail. Now she's weighing her last hope on a controversial profile. It suggests that the one key to solving the case lies with the seventh victim. But that key will also unlock secrets that could destroy Vail's career, and expose a truth that even she might not be strong enough to survive. In compiling his research for The 7th Victim, Alan Jacobson was allowed wide-ranging access to the FBI's behavioral profiling unit over several years. Named one of the top five books of the year by Library Journal, it's "a quantum leap in terror and suspense . . . A masterpiece" (New York Times-best-selling author James Rollins).

In this special edition of War Dogs, adapted specifically for a younger audience, Rebecca Frankel offers a riveting mix of on-the-ground reporting her own hands-on experiences in the military working dog world, and a look at the science of dogs' special abilities—from their amazing noses and powerful jaws to their enormous sensitivity to the emotions of their human companions. Her narrative gives us insight into the world of dogs in combat and the touching aspect of the relationship between soldiers and their dogs. Frankel explores the long, rich history of dogs in the US military, from the spirit-lifting mascots of the Civil War to the dogs still leading patrols hunting for IEDs today. Frankel not only interviewed handlers who deployed with dogs in wars from Vietnam to Iraq, but top military commanders, K-9 program managers, combat-trained therapists who brought dogs into war zones as part of a preemptive measure to stave off PTSD, and veterinary technicians stationed in Bagram. She makes a passionate case for maintaining a robust war-dog force. In this YA edition, Rebecca Frankel gives further insight into her work as a journalist and how it led her to explore the world of dogs and their handlers. With a compelling cast of humans and animals, this moving book is a must read for all dog lovers.
