The sale of a business usually is not a sale of an asset. Instead, all the assets of the business are sold. Generally, when this occurs, each asset is treated as being sold separately for determining the treatment of gain or loss. A business usually has many assets. When sold, these assets must be classified as capital assets, depreciable property used in the business, real property used in the business, or property held for sale to customers, such as inventory or stock in trade.

Human trafficking generates \$31 billion annually and enslaves 27 million people around the globe, half of them children under the age of eighteen. Award-winning journalist David Batstone, whom Bono calls "a heroic character," profiles the new generation o

\*Award-winning journalist David Batstone reveals the story of a new generation of 21st century abolitionists and their heroic campaign to put an end to human bondage. In his accessible and inspiring book Not for Sale, Batstone carefully weaves the narratives of activists and those in bondage in a way that not only raises awareness of the modern-day slave trade, but also serves as a call to action. 2007 brought the 200th anniversary of the climax of the 19th century abolitionist movement, and inspired the world to pay tribute to great visionary figures such as William Wilberforce of the United Kingdom and American Frederick Douglass for their remarkable strides toward framing slavery as a moral issue that people of good conscience could not tolerate. This anniversary serves not only as a commemorative date for battles won against slavery, but also as a reminder that slavery and bondage still persist in the 21st century. An estimated 27 million people around the globe suffer in situations of forced labor and commercial sexual exploitation from which they cannot free themselves. Trafficking in people has become increasingly transnational in scope and highly lucrative. After illegal drug sales and arms trafficking, human trafficking is today the third most profitable criminal activity in the world, generating \$31 billion annually. As many as half of all those trafficked worldwide for sex and domestic slavery are children under 18 years of age\*\*

My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards
