Use this convenient resource to formulate nursing diagnoses and create individualized care plans! Updated with the most recent NANDA-I approved nursing diagnoses, Nursing Diagnosis Handbook: An Evidence-Based Guide to Planning Care, 9th Edition shows you how to build customized care plans using a three-step process: assess, diagnose, and plan care. It includes suggested nursing diagnoses for over 1,300 client symptoms, medical and psychiatric diagnoses, diagnostic procedures, surgical interventions, and clinical states. Authors Elizabeth Ackley and Gail Ladwig use Nursing Outcomes Classification (NOC) and Nursing Interventions Classification (NIC) information to guide you in creating care plans that include desired outcomes, interventions, patient teaching, and evidence-based rationales. Promotes evidence-based interventions and rationales by including recent or classic research that supports the use of each intervention. Unique! Provides care plans for every NANDA-I approved nursing diagnosis. Includes step-by-step instructions on how to use the Guide to Nursing Diagnoses and Guide to Planning Care sections to create a unique, individualized plan of care. Includes pediatric, geriatric, multicultural, and home care interventions as necessary for plans of care. Includes examples of and suggested NIC interventions and NOC outcomes in each care plan. Allows quick access to specific symptoms and nursing diagnoses with alphabetical thumb tabs. Unique! Includes a Care Plan Constructor on the companion Evolve website for hands-on practice in creating customized plans of care. Includes the new 2009-2011 NANDA-I approved nursing diagnoses including 21 new and 8 revised diagnoses. Illustrates the Problem-Etiology-Symptom format with an easy-to-follow, colored-coded box to help you in formulating diagnostic statements. Explains the difference between the three types of nursing diagnoses. Expands information explaining the difference between actual and potential problems in performing an assessment. Adds detailed information on the multidisciplinary and collaborative aspect of nursing and how it affects care planning. Shows how care planning is used in everyday nursing practice to provide effective nursing care.

Get the need-to-know pharmacology nursing skills you need to succeed on the NCLEX® and beyond with Study Guide for Pharmacology and the Nursing Process, 9th Edition! Designed to accompany Lilley ' s Pharmacology and the Nursing Process, 9th Edition textbook, this workbook features worksheets for each chapter that include NCLEX-RN® Examination-style review questions, critical thinking and application questions, case studies, and other educationally sound learning activities. Chapter-by-chapter worksheets are divided into 3 main sections: Chapter Review and NCLEX Examination Preparation, Critical Thinking and Application, and Case Study. Chapter review and NCLEX® Examination preparation included in each chapter worksheet contains a number of application-based NCLEX practice questions, including at least one alternate-item question per chapter. Focus on prioritization features at least one prioritization exercise in which the student must evaluate a clinical scenario and answer the question: "What is the nurse ' s best action?" Overview of dosage calculations section contains explanations of key drug calculations, concepts, sample drug labels, practice problems, and a practice quiz. Learning strategies expands upon the unique, cartoon-illustrated study strategies included in the Lilley text. Answers for all exercises are provided at the back of the book to facility self-study. NEW! Updated content is completely current and ensures that the Study Guide content is consistent with the Lilley textbook. NEW! Expanded NCLEX® focus includes one to two additional NCLEX Examination-style questions for each chapter, including additional alternate item format types.

The Nurse Educator's Guide to Assessing Learning Outcomes, Fourth Edition is a widely-used resource for both faculty and nursing education students that covers the assessment of critical thinking, the development of learning objectives, and the creation of tests, including detailed tips for writing many kinds of individual test items. The book also covers the analysis of test reliability.Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

The new edition of Nursing Care Planning Made Incredibly Easy is the resource every student needs to master the art of care planning, including concept mapping. Starting with a review of the nursing process, this comprehensive resource provides the foundations needed to write practical, effective care plans for patients. It takes a step-by-step approach to the care planning process and builds the critical thinking skills needed to individualize care in the clinical setting. Special tips and information sections included throughout the book help students incorporate evidence-based standards and rationales into their nursing interventions.

The Nurse Educator's Guide to Assessing Learning Outcomes, Third Edition is a widely-used resource for both faculty and nursing education students that covers the assessment of critical thinking, the development of learning objectives, and the creation of tests, including detailed tips for writing many kinds of individual test items. The book also covers the analysis of test reliability. Examples of effective and ineffective test items are included throughout to help faculty and nurse educators deepen their understanding of how to create effective tests and assess student learning. This new edition addresses the increased pressure that NCLEX and other certification exams are placing on nursing students and faculty, and reflects the most recent updates to the NCLEX Detailed Test Plan. Each chapter has been updated with timely information and examples.

Acello/Hegner's NURSING ASSISTANT: A NURSING PROCESS APPROACH has prepared more nursing assistants for meaningful careers in acute care, long-term care and home health than any other book of its kind. Thoroughly updated to reflect expanding real-world practice, the 12th Edition walks you step-by-step through more than 150 procedures, including key skills in patient handling and transfers, wound care, communication, safety and record keeping, as well as special care procedures for patients with medical devices, catheters and physical or mental impairments. Easy-to-understand chapters also take you through the essential background information nursing assistants need to know, such as basic human anatomy, career planning and emerging health care trends. In addition, vibrant, full-color photos and illustrations bring chapter concepts to life. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
