Academic Paper from the year 2014 in the subject English - Literature, Works, Ranchi University , language: English, abstract: Introduction. William Shakespeare's classic 'Othello' is often seen as a concoction and identification of various themes, cultures and personalities. First published in 1622, and then in the First Folio (edited by Heminges and Condell) in 1623, with differences in the application of words persisting in the two consecutive editions. The play is one of the five major tragedies of Shakespeare, apart from 'Hamlet', 'Macbeth', 'Antony And Cleopatra' and 'King Lear', and is also one of the most popular. Interestingly, 'Othello' is perceived from a number of prospects, including noble versus Moorish, military versus civilian, Christian versus Heathen, good versus evil, appearance versus reality, loyalty versus treachery and civilized versus barbarian. But the present essay endeavours to show the play as Shakespeare's careful scrutinization of the two most common phenomena- faith and honour.

character of Othello's wife, Desdemona, in relation to the men and the society in the play. "Othello" is believed to have been written in 1603 and deals, as it is typical for dramatic and tragic plays, with the downfall of the hero from proud reign to jealous despair. The situation in the play changes dramatically, when the hero Othello changes his mind about Desdemona from a passionate lover to the hateful killer, because of his Ancient Iago's intrigues. Iago is said to be one of the greatest villains Shakespeare ever created, because "[e]vil has nowhere else been portrayed with such mastery as in the character of Iago" (Bradley, 207). Within the plot, the action increases constantly with every new cruel step in his plan to make Othello believe that his wife is cheating on him with his lieutenant Michael Cassio. Iago influences every action that takes place in the plot, because he wants to destroy the people who have betrayed him, by planting false thoughts in their heads, so that they give his speeches faith and draw the wrong conclusions. So he does with Othello, by letting him believe that his wife is unfaithful. In this essay, the focus now should be on Desdemona and discuss how she is a tragic figure. Because on the one hand she is a puppet in Iago's games, but with a developed character, and on the other hand she stands up for herself, for example, if she marries Othello against the wishes of her father, and has her own opinions that she represents in front of others.

William Faulkner [RL 8 IL 7-12] An aristocratic Southern woman hides a macabre secret. Themes: lost love; secret passions. 36 pages. Tale Blazers.

Performing Transversally expands on Bryan Reynolds' controversial transversal theory in exciting ways while offering groundbreaking analyses of Shakespeare's plays - Hamlet , Othello , Macbeth , Taming of the Shrew , Titus Andronicus , Henry V , The Tempest , and Coriolanus - and textual, filmic, and theatrical adaptations of them. With his collaborators, Reynolds challenges traditional readings of Shakespeare, re-evaluating the critical methodologies that characterize them, in regard to issues of cultural difference, authorship, representation, agency, and iconography. Reynolds demonstrates the value of his 'investigative-expansive mode,' outlining a 'transversal poetics' that points toward a critical future that is more aware of its subjective interconnectedness with the topics and audiences it seeks to engage than is reflected in most Shakespeare criticism and literary-cultural scholarship.

REA's MAXnotes for William Shakespeare's Othello The MAXnotes offers a comprehensive summary and analysis of Othello and a biography of William Shakespeare. Places the events of the play in historical context and discusses each act in detail. Includes study questions and answers along with topics for papers and sample outlines.

"The Yellow Wallpaper" is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine.[1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a "temporary nervous depression - a slight hysterical tendency", a diagnosis common to women during that period"

The complex and sometimes contradictory expressions of love in Shakespeare's works—ranging from the serious to the absurd and back again—arise primarily from his dramatic and theatrical flair rather than from a unified philosophy of love. Untangling his witty, bawdy (and ambiguous) treatment of love, sex, and desire requires a sharp eye and a steady hand. In *Shakespeare on Love and Lust*, noted scholar Maurice Charney delves deeply into Shakespeare's rhetorical and thematic development of this largest of subjects to reveal what makes his plays and poems resonate with contemporary audiences. The paradigmatic star-crossed lovers of *Romeo and Juliet*, the comic confusions of couples wandering through the wood in *A Midsummer Night's Dream*, *Othello's* tragic jealousy, the homoerotic ways Shakespeare played with cross-dressing on the Elizabethan stage—Charney explores the world in which Shakespeare lived, and how it is reflected and transformed in the one he created. While focusing primarily on desire between young lovers, Charney also explores themes of love in marriage (*Brutus and Portia*) and in same-sex pairings (*Antonio and Sebastian*). Against the conventions of Renaissance literature, Shakespeare qualified the Platonic view that true love transcends the physical. Instead, as Charney demonstrates, love in Shakespeare's work is almost always sexual as well as spiritual, and the full range of desire's dramatic possibilities is displayed. *Shakespeare on Love and Lust* begins by considering the ways in which Shakespeare drew upon and satirized the conventions of Petrarchan Renaissance love poetry in plays like *Romeo and Juliet*, then explores how courtship is woven into the basic plot formula of the comedies. Next, Charney examines love in the tragedies and the enemies of love (*Iago*, for example). Later chapters cover the gender complications in such plays as *Macbeth* and *The Taming of the Shrew* as well as the homoerotic themes woven into many of the poems and plays. Charney concludes with a lively discussion of paradoxes and ambivalences about love expressed by Shakespeare's word play and sexual innuendoes.

Each of these essays addresses not only a play, but a specific cultural or literary topic. They cover vital perspectives in cultural studies such as race, class, gender, sexuality and colonialism; as well
