You'll have so much fun conducting experiments and completing activities, you'll forget that you're actually learning about science!

Science has never been so easy--or so much fun! With The Everything Kids' Science Experiments Book, all you need to do is gather a few household items and you can recreate dozens of mind-blowing, kid-tested science experiments. High school science teacher Tom Robinson shows you how to expand your scientific horizons--from biology to chemistry to physics to outer space. You'll discover answers to questions like: Is it possible to blow up a balloon without actually blowing into it? What is inside coins? Can a magnet ever be "turned off"? Do toilets always flush in the same direction? Can a swimming pool be cleaned with just the breath of one person? You won't want to wait for a rainy day or your school's science fair to test these cool experiments for yourself!

spelling. Pick up helpful tricks, like putting words into songs and rhymes. Learn fun games and exercises to practice spelling. Study spelling lists to master even the toughest words. And more! Along with 30 fun-filled puzzles and activities, this book offers children, parents, and teachers all the tools they need to buzz with spelling success!

Our Earth is part of a fascinating planetary family--eight planets and an odd bunch of solar system "cousins"--that spin, roll, tilt, blow, and whirl around the Sun. Here, to the tune of "Over in the Meadow," young ones can get a glimpse of our remarkable neighborhood, and our place in a very big universe. Simultaneous.
