Korean Pronunciation Guide - How to Sound like a Korean  
Author : Kim Jimin, Yoon Shinae, Lee Eunju Book page : 280 pages Supplement : MP3 CD About This Book Korean Pronunciation Guide - How to Sound Like a Korean is a learning material for the self-study of pronunciation, targeted for Level 2 to 4 learners, or beginners and intermediate learners of Korean. The pronunciation rules that have been covered in bits and pieces in existing Korean textbooks are summarized here in systematic structures and contents. Basic Korean pronunciations are presented by consonants, vowels, final consonants (Batchim) and liaisons; then rules that learners want to know the most in studying pronunciation are summarized in order, including palatalization and nasalization. After learning the basics and rules, learners can perform self-diagnosis of the accuracy and speed of pronunciation based on the colloquial and literary words categorized by difficulty and by subject. This book will help learners start the study from the pronunciation principles and eventually expand the study to improve speaking and listening skills. □ A systematic 3-step structure, composed of basics, rules and recitation The basics step will help learners study the fundamental Korean pronunciations starting from the principles applied in creating hangeul. The rules part will help learners study pronunciation rules applied between syllables. In the last step, learners can study the applications of these rules and practice to read texts out following the actual dialogue speed. □ Vivid illustrations and detailed English explanations to effectively study complicated pronunciations Illustrations are detailed and vivid, how the speech organs are moved when articulating. These will allow

learners to compare and study pronunciations that they are particularly struggling with. All explanations are offered in English so that even Korean learners with less than intermediate proficiency can easily understand the contents. 20 texts for recitation with diverse materials to learn culture and improve fluency The writing materials are closely linked to real life, and total 20 texts are offered both in colloquial and literary styles. Learners can listen and repeat after them, expanding their understanding and knowledge of Korean culture. Texts in various styles are read by professional voice actors and learners can practice and improve their fluency as they try to follow the recorded reading speed. MP3(CD)

This revised and updated edition of Modern German Pronunciation offers the most complete guide to the correct pronunciation of German for native speakers of English. It begins with an introduction to the problems of pronunciation and the basic concepts of phonetics. The following chapters take each aspect of pronunciation in turn: consonants, vowels, stress and intonation, and the conversational pronunciation of German with its many reduced or "weak" forms. The text is comprehensively illustrated with clear pronunciation and intonation diagrams and the emphasis is on the problems that speakers of English are known to encounter when learning to speak German. This second edition has been revised and updated, taking into account

# Download Free The Pronunciation Of The Aspirated Consonants P T And K

comments and suggestions from readers and adapting the German texts to the new official spelling. A significant new feature is the discussion of English-speaking learners of German has been extended to include American learners, reflecting the use world-wide of the first edition of this volume.

Linguistics: an introduction to language and communication.
