I first read this series as a teenager, and now as an adult I found Tomorrow When the War Began just as compelling. The narrator does a great job, I forget how fast Aussies talk! She handles the different voices well, but with subtlety. I can see how someone who is unfamiliar with the Australian accent might not hear the distinctions between characters. So if you thought Taggart from A Town ...

When Ellie and six of her friends return home from a camping trip deep in the bush, they find things hideously wrong -- their families gone, houses empty and abandoned, pets and stock dead. Gradually they begin to comprehend that their country has been invaded and everyone in the town has been taken prisoner. As the horrible reality of the situation becomes evident they have to make a life-and-death decision: to run back into the bush and hide, to give themselves up to be with their families, or to stay and try to fight. This reveting, tautly-drawn novel seems at times to be only a step away from today's headlines.

Deluxe paperback reissue of the second of the Tomorrow series, a seven-novel sequence for young adult readers telling of the experiences and exploits of a group of teenagers after the invasion of Australia. The series has been reissued to celebrate the 10th anniversary of the publication of first book in the series, 'Tomorrow, When the War Began'. In this volume, first published 1994, narrator Ellie and her friends return to Hell and set up camp there. They also encounter another band that have escaped captivity, but find the experience also intolerable. Next in the series is 'The Third Day, the Frost'. A former teacher, Marsden is a bestselling author for young adults and teacher of writing. His other books include 'The Journey' and 'Millie'.

A haunting, beautiful first novel by the bestselling author of A Long Way Gone When Ishmael Beah's A Long Way Gone was published in 2007, it soared to the top of bestseller lists, becoming an instant classic: a harrowing account of Sierra Leone's civil war and the fate of child soldiers that "everyone in the world should read" (The Washington Post). Now Beah, whom Dave Eggers has called "arguably the most read African writer in contemporary literature," has returned with his first novel, an affecting, tender parable about postwar life in Sierra Leone. At the center of Radiance of Tomorrow are Benjamin and Bockarie, two longtime friends who return to their hometown, Imperi, after the civil war. The village is in ruins, the ground covered in bones. As more villagers begin to come back, Benjamin and Bockarie try to forge a new community by taking up their former posts as teachers, but they're beset by obstacles: a scarcity of food; a rash of murders, thievery, rape, and retaliation; and the depredations of a foreign mining company intent on sullyng the town's water supply and blocking its paths with electric wires. As Benjamin and Bockarie search for a way to restore order, they're forced to reckon with the uncertainty of their past and future alike. With the gentle lyricism of a dream and the moral clarity of a fable, Radiance of Tomorrow is a powerful novel about preserving what means the most to us, even in uncertain times. Named one of the Christian Science Monitor's best fiction books of 2014

When a weapon that could destroy the moral fabric of humanity is unleashed inside the Syrian border, one man takes a stand against the overwhelming wave of tyranny triggered by martial law, hell-bent on restoring America's liberty and saving civilization as we know it.

The Other Side of Dawn is the long-awaited, riveting, final title in the Tomorrow series about a group of teenagers in war-torn Australia. Since their home was invaded by enemy soldiers and transformed into a war zone, Ellie and her friends have been fighting for their lives. They have learned survival skills out of necessity and taken care of each other through impossibly dark times. Now, with a roar like a train in a tunnel, the war has entered its final days. There's no more sitting around, no more waiting. There's only fast decisions, fast action, fast thinking--and no room to get it wrong. As the enemy forces close in on their hideout in Hell, Ellie, Fi, Homer, Lee, and Kevin, and their adopted group of orphaned children, find themselves facing the last chapter of their struggle for freedom. But it may just be the most dangerous yet. And not everyone will survive.

From Hell to Stratton isn't an easy trip, especially when the enemy's headquarters lies somewhere in between. And that's exactly where Ellie and her friends unwillingly find themselves--smack in the middle of the Wirrawee airfield. With only five of them against hundreds of armed soldiers, escape seems like a suicide mission. The odds aren't good, and Kevin's nervous breakdown isn't helping matters. Ellie and her compatriots are back, battling to stay alive and struggling to stay together in John Marsden's latest book in the TOMORROW, WHEN THE WAR BEGAN series. High-speed truck chases, unexpected river journeys, and treachery by one of their own are just a few of the problems these Australian teens face in this gritty tale of war and survival.

Experts consider how the lessons of World War I can help prevent U.S.-China conflict. A century ago, Europe's diplomats mismanaged the crisis triggered by the murder of Archduke Franz Ferdinand of Austria and the continent plunged into World War I, which killed millions, toppled dynasties, and destroyed empires. Today, as the hundredth anniversary of the Great War prompts renewed debate about the war's causes, scholars and policy experts are also considering the parallels between the present international system and the world of 1914. Are China and the United States fated to follow in the footsteps of previous great power rivals? Will today's alliances drag countries into tomorrow's wars? Can leaders manage power relationships peacefully? Or will East Asia's territorial and maritime disputes trigger a larger conflict, just as rivalries in the Balkans did in 1914? In The Next Great War?, experts reconsider the causes of World War I and explore whether the great powers of the twenty-first century can avoid the mistakes of Europe's statesmen in 1914 and prevent another catastrophic conflict. They find differences as well as similarities between today's world and the world of 1914--but conclude that only a deep understanding of those differences and early action to bring great powers together will likely enable the United States and China to avoid a great war.
