The 4th edition of this book has been updated to meet the new requirements of the students, professors, and practitioners. This is an enhanced version of the earlier editions. To update and enhance the coverage of the book, many chapters have been restructured, and some new content/chapters have also been added. In addition, to have better engagement and learning outcomes for the reader, certain new pedagogical features have also been added. NEW IN THIS EDITION • A new chapter on 'Ethical and Social Issues' •

Applications using MS-Access in the upgraded Chapter 5 – Data Resource Management • Concepts on organisations in Chapter 2 – Information, Systems and Organisation Concepts • Concepts of e-Governance in chapter 7 – e-Commerce, e-Business and e-Governance • Some latest trends and concepts in Chapter 4 – IT Infrastructure • Concepts on Project Management in chapter 12 – IS development and Project Management KEY FEATURES • Some new cases have been added, and various case studies from the earlier edition have been updated • New pedagogical elements, such as Objective-type Questions, True/False Questions, Review Questions and Assignments have been added in chapters • Glossary has also been incorporated to get a quick understanding of the terms used in the book • Instructor support has been added on the web through Online Resources

Appropriate for any course introducing management information systems from a business perspective. This casebook will serve as an ideal complement to most MIS/CIS textbooks. Designed to demonstrate how software can support managerial decision-making activities, this casebook features 24 cases (more than another casebook currently on the market) covering a wide range of functional areas throughout the business, including finance/accounting, HR, production, and information systems. The cases are spread across three difficulty levels basic, intermediate, and advanced. They present common managerial issues and problems, and encourage students to actually use their models to make decisions for the cases characters. They require students to apply spreadsheet, database, Web-page development, and/or

presentation graphics software, often in an integrated manner. Many of the cases require students to prepare both written and oral presentations on their solutions. Among the topics covered in MIS Cases: Decision Making with Application Software Second Edition: forecasting, inventory decisions, what-if analyses, pricing strategies, billing decisions, and much more.

Using MIS is the book that teaches students how people use information systems to solve business problems. Building on students' experience and knowledge base from personal MIS to workgroup MIS to enterprise MIS, this text stresses the important role of Information Systems in satisfying business objectives. Realistic examples, mini-cases, case applications, and thought-provoking review material with projects promote active learning.

This text is beneficial to the business professional interested in a basic understanding of management information systems today.

Business Driven Information Systems, 4e discusses various business initiatives first and how technology supports those initiatives second. The premise for this unique approach is that business initiatives should drive technology choices. Every discussion first addresses the business needs and then addresses the technology that supports those needs. This updated edition provides the foundation that will enable students to achieve excellence in business through its updated case studies, closing cases, technology plug-ins, expanded IT topics, and new project management content. Business Driven Information Systems is designed to give students the ability to understand how information technology can be a point

of strength for an organization, and McGraw-Hill's online learning and assessment solution, Connect MIS, helps students apply this knowledge. For more information on Baltzan, Business Driven Information Systems, 4e, please visit: www.mhhe.com/baltzan4e For more information on Connect, please visit: connect.mcgraw-hill.com For more information on SIMnet for Office 2013, please visit www.simnetkeepitsimple.com

MIS Cases gives students practice solving business problems using application software. Offers case studies to develop database skills, spreadsheet skills, and web development skills. For business professionals who would like to refine skills needed to solve managerial problems.

Now completely revised (over 90% new), this definitive practitioner reference and course text comprehensively reviews evidence-based treatments for psychological disorders in children and adolescents. The significantly expanded fourth edition covers an increased number of disorders, as well as transdiagnostic issues and public health concerns. Psychosocial, pharmacological, and

complementary therapies are identified and described in well-organized chapters that include rich clinical illustrations. Prominent experts address developmental considerations in treatment and offer guidance for tailoring interventions to each child and family's needs. Prior edition title: Treatment of Childhood Disorders, Third Edition, edited by Eric J. Mash and Russell A. Barkley. New to This Edition *All chapters are new, reflecting over a decade of clinical and empirical developments. *Chapters on additional clinical issues: bipolar disorder, suicidal and nonsuicidal self-injury, obsessive–compulsive disorder, infant and toddler problems, posttraumatic stress disorder, coping and emotion regulation, bereavement, early-onset schizophrenia, personality disorders, childhood obesity, and sleep problems. *Chapters on case conceptualization and evidence-based therapist flexibility.

*Illustrative case examples and transcripts added throughout.
*Updated for DSM-5; every chapter also considers transdiagnostic and dimensional issues.
